### **DETAILED ACTION**

The Declaration filed on 8/1/705 under 37 CFR 1.131 has been considered but is ineffective to overcome the Dang et al reference.

The evidence submitted is insufficient to establish a reduction to practice of the invention in this country or a NAFTA or WTO member country prior to the effective date of the Dang et al reference.

Note that the following parties may make a declaration under 37 CFR 1.131:

(A) All the inventors of the subject matter claimed,

(B) A declaration by less than all name inventors of an application is accepted where it is shown that less than all named inventors of an application invented the subject matter of the claims under rejection.

Declaration to overcome a rejection of claims must be made by the inventor or inventors of the subject matter of the rejected claims. Thus, where all of the named inventors of a pending application are not inventors of every claim of the application, any declaration under 37 CFR 1.131 could be signed by only the inventor(s) of the subject matter of the rejected claims. In this particular case, Dr. Fred E. Arnold has not been signed and dated; Dr. Barry L. Farmer has been signed but not dated. However, the declaration, even though signed by fewer than all of the joint inventors, must show completion of the invention by all of the joint inventors of the subject matter of the claims under rejection, *In re Carlson*, 79 F.2d 900, 27 USPQ 400 (CCPA 1935).

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dang et al (Polymer Preprints 2002).

The rejection is maintained for the reasons as stated in the last Office action and for the reasons, as stated above.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
